

Name: _____ Date: _____ Period: _____

Features of Functions Assignment #2

Draw lines to match the graph to the contextual description that describes it best.

Descriptions

Graphs

1. The amount of money in a savings account where regular deposits and some withdrawals are made.

2. The temperature of the oven on a day that mom bakes several batches of cookies.

3. The amount of gasoline on hand at the gas station before a tanker truck delivers more.

4. The number of watermelons available for sale at the farmer's market on Thursday.

5. The amount of mileage recorded on the odometer of a delivery truck over a time period.

6. Label each axis of the graphs with the proper variables from the appropriate descriptions.

Graph each of the functions. Make a table of values to help, or use what you know about sequences.

7. $f(x) = -2x + 5$

8. $g(x) = 4 - 3x$

9. $h(x) = 5(3)^x$

10. $k(x) = 4(2)^x$

11. $v(t) = 2.5t - 4$

12. $f(x) = 8(3)^x$

13. Sketch a continuous graph that is a function.

14. Sketch a discrete graph that is not a function.
